Core Competencies & Technical Skills

Web Technologies & JavaScript: Actively developing proficiency in front-end fundamentals, including HTML, CSS, and JavaScript (ES6+). Currently focused on DOM manipulation, leveraging: freeCodeCamp, Udemy: The Complete JavaScript Course 2025, codeWars, Eloquent JavaScript, and Exercises for Programmers

Core Skills: Technical Troubleshooting & Root Cause Analysis • Cross-Functional Collaboration • Platform Lifecycle Support • Client & Stakeholder Communication • Training & Technical Enablement

Analytics	Google Analytics 4 (GA4) • Adobe Analytics • Google Tag Manager (GTM) • DataLayer / Event Tracking • GA4 DebugView
Web & Dev	JavaScript (ES6+) • HTML / CSS • DOM Manipulation • Chrome DevTools • REST APIs / JSON
Tools & Workflow	Jira • Confluence • Git / GitHub • Postman • Zapier
In Progress	SQL • Node.js • Salesforce Trailhead • HubSpot

Work Experience

Singular Genomics • San Diego, CA • 11/2020 - 2/2025
Senior Research Associate / Engineer

- Led technical validation and onboarding for Early Access Program (EAP) Clients, designing testing frameworks and validation protocols that ensured product stability and performance ahead of market launch
- Served as the primary technical liaison between end-users and Engineering, providing hands-on support while translating user-reported bugs and feature requests into structured, actionable tickets
- Built and delivered a user training program covering NGS and spatial sequencing platforms, created documentation that reduced user error rates across internal and external teams
- Acted as the subject matter expert during product demonstrations for marketing and commercial stakeholders, communicating complex technical capabilities to technical and non-technical audiences

- Coordinated cross-functional workflows spanning Engineering, Field Applications, Manufacturing, and Commercial teams for a multi-site EAP rollout — managing timelines, escalations, and stakeholder communication

Research Associate II

- Provided hands-on technical troubleshooting for legacy and commercial platforms, maintaining high availability for 5+ concurrent internal project teams
- Collaborated with developers to optimize data management workflows and analysis pipelines, resulting in a measurable reduction of false-positive sequencing errors

Research Associate

- Conducted deep-dive technical analysis on core platform components to identify opportunities for performance improvement, increasing data accuracy and operational efficiency
- Refined and documented critical data processing workflows, reducing error rates and improving overall quality standards across the platform

Crown Bioscience • San Diego, CA • 09/2019 – 10/2020
Research Associate

- Analyzed and interpreted complex multi-variable datasets, producing clear and actionable technical reports for cross-functional stakeholders
- Managed independent research projects end-to-end, coordinating across internal teams to meet deadlines and deliverable goals

Mosaic Laboratories • Lake Forest, CA • 01/2018 – 08/2019
Logistics Technician

- Managed scheduling and client communications for key accounts, ensuring timely project delivery and maintaining strong client relationships

Education

Bachelor of Science in Human Biology - University of California, San Diego
